COMPOUNDING FOR

Weight Management

Two combination capsules your patients can't get off the shelf, made to your strengths and filled in our Lancaster lab.

WHAT WE COMPOUND

- **Phentermine / Topiramate / B6**
  Phentermine 15 mg, topiramate 25 to 175 mg, pyridoxine 10 mg; SR capsule; Schedule IV
- **Topiramate strengths**
  Choose 25, 50, 75, 100, 125, 150 or 175 mg on the order form
- **Naltrexone / Topiramate / B6**
  Naltrexone 4.5 mg, topiramate 25 to 100 mg, pyridoxine 10 mg; SR capsule
- **Your own formula**
  Need a different strength? Write it in or call the compounding pharmacist

HOW ORDERING WORKS

1 Check the boxes

Mark the compounds on our Weight Management order form, or write your own formula.

2 Send it to us

E-prescribe to **Medicine Shoppe #1018** or fax the form to 740-653-8265.

3 We compound and ship

Ready 1 to 2 business days after the Rx arrives. Free shipping anywhere in Ohio.

> Phentermine is a Schedule IV controlled substance. Send it as an e-prescription (EPCS) or a signed prescription with your DEA number; a faxed order form alone cannot be filled.

Billing: we bill the patient or your office (cash pay). Typical cash price: #30 $49.99, #60 $79.99, #90 $119.99 (mL or capsules); prices can vary by formula.

HOW PRESCRIBERS USE THESE INGREDIENTS

Phentermine: Appetite suppressant prescribed to support short-term weight management alongside diet and exercise (its FDA-approved use).

Topiramate: Prescribed to support weight management; it is one ingredient of an FDA-approved weight-management combination with phentermine.

Naltrexone: Prescribed to support weight management; it is one ingredient of an FDA-approved weight-management combination with bupropion.

Pyridoxine (B6): Vitamin B6, included as a supplement in the combination.

Notes describe common reasons prescribers choose each ingredient; some uses are off-label. They are not claims about our compounded preparations, which are not FDA-approved and whose safety and effectiveness have not been evaluated by FDA. Therapy decisions are the prescriber's.

COMPOUNDING FOR

Hormone Therapy (BHRT)

Creams and capsules in the strengths and bases you prescribe, with a pharmacist you can call by name.

WHAT WE COMPOUND

- **Biest (80:20 or custom ratio)**
  Cream, alone or combined with progesterone
- **Progesterone**
  Cream, capsule or SR capsule
- **Your own formula**
  Different strength or base? Write it in or call us
- **Estradiol**
  Cream, including estradiol with vitamin E
- **Testosterone**
  Cream for women and men; Schedule III

HOW ORDERING WORKS

1 Check the boxes

Mark the compounds on our Hormone Therapy (BHRT) order form, or write your own formula.

2 Send it to us

E-prescribe to **Medicine Shoppe #1018** or fax the form to 740-653-8265.

3 We compound and ship

Ready 1 to 2 business days after the Rx arrives. Free shipping anywhere in Ohio.

Testosterone is a Schedule III controlled substance: e-prescribe it (EPCS) or send a signed prescription with your DEA number.

Billing: we bill the patient or your office (cash pay). Typical cash price: #30 $49.99, #60 $79.99, #90 $119.99 (mL or capsules); prices can vary by formula.

HOW PRESCRIBERS USE THESE INGREDIENTS

Estradiol: Estrogen prescribed to support menopausal hormone therapy, including hot flashes and vaginal dryness (FDA-approved uses).

Biest: Estriol and estradiol blend prescribed to support menopausal hormone therapy in the ratio you choose.

Progesterone: Prescribed to support hormone balance; paired with estrogen to support protection of the uterine lining (an FDA-approved use).

Testosterone: Prescribed to support healthy testosterone levels in men with low T (FDA-approved), and at low doses for women (off-label).

Notes describe common reasons prescribers choose each ingredient; some uses are off-label. They are not claims about our compounded preparations, which are not FDA-approved and whose safety and effectiveness have not been evaluated by FDA. Therapy decisions are the prescriber's.

COMPOUNDING FOR

Thyroid

Capsules made to the exact microgram strength you write, in the filler your patient needs.

WHAT WE COMPOUND

- **Liothyronine (T3)**
  Capsule, immediate release
- **Levothyroxine (T4)**
  Capsule
- **Filler choice**
  Cellulose, rice flour and other fillers on request
- **Liothyronine (T3) SR**
  Sustained-release capsule
- **T3 / T4 combinations**
  Capsule, in the ratio you prescribe

HOW ORDERING WORKS

1 Check the boxes

Mark the compounds on our Thyroid order form, or write your own formula.

2 Send it to us

E-prescribe to **Medicine Shoppe #1018** or fax the form to 740-653-8265.

3 We compound and ship

Ready 1 to 2 business days after the Rx arrives. Free shipping anywhere in Ohio.

Billing: we bill the patient or your office (cash pay). Typical cash price: #30 $49.99, #60 $79.99, #90 $119.99 (mL or capsules); prices can vary by formula.

HOW PRESCRIBERS USE THESE INGREDIENTS

Levothyroxine (T4): Thyroid hormone prescribed to support thyroid function in hypothyroidism.

Liothyronine (T3): Active thyroid hormone prescribed to support thyroid function; SR capsules release it gradually.

T3 / T4 combinations: Prescribed to support thyroid function when you want both hormones in one capsule.

Filler choice: Supports patients who need to avoid certain fillers or dyes.

Notes describe common reasons prescribers choose each ingredient; some uses are off-label. They are not claims about our compounded preparations, which are not FDA-approved and whose safety and effectiveness have not been evaluated by FDA. Therapy decisions are the prescriber's.

COMPOUNDING FOR

Pain Management

Topical creams built from the ingredients and percentages you choose, in one tube or pump.

WHAT WE COMPOUND

- **Multi-ingredient creams**
  Ketamine, gabapentin, diclofenac, baclofen, lidocaine, clonidine combinations
- **Gabapentin creams**
  Alone or with lidocaine and prilocaine
- **Magnesium, MSM, glucosamine**
  Topical cream bases
- **Diclofenac / lidocaine**
  Cream, 3% / 3% and other strengths
- **Ketoprofen and ketamine**
  Single-ingredient creams in the strength you write

HOW ORDERING WORKS

1 Check the boxes

Mark the compounds on our Pain Management order form, or write your own formula.

2 Send it to us

E-prescribe to **Medicine Shoppe #1018** or fax the form to 740-653-8265.

3 We compound and ship

Ready 1 to 2 business days after the Rx arrives. Free shipping anywhere in Ohio.

Billing: we bill the patient or your office (cash pay). Typical cash price: #30 $49.99, #60 $79.99, #90 $119.99 (mL or capsules); prices can vary by formula.

HOW PRESCRIBERS USE THESE INGREDIENTS

Diclofenac, ketoprofen: NSAIDs used in topical formulas to support management of joint and muscle pain.

Gabapentin: Used in topical formulas to support management of nerve pain.

Ketamine, clonidine: Used in topical formulas to support management of nerve pain.

Lidocaine, prilocaine: Local anesthetics that numb the skin where applied.

Baclofen: Muscle relaxant used in topical formulas to support management of muscle spasm.

Magnesium, MSM, glucosamine: Supplement ingredients used in creams to support joint and muscle comfort.

Notes describe common reasons prescribers choose each ingredient; some uses are off-label. They are not claims about our compounded preparations, which are not FDA-approved and whose safety and effectiveness have not been evaluated by FDA. Therapy decisions are the prescriber's.

COMPOUNDING FOR

Dermatology & Aesthetics

Custom creams, gels and solutions for your practice, mixed in the strengths you prescribe.

WHAT WE COMPOUND

- **Hydroquinone formulas**
  Alone or with tretinoin, kojic acid, hydrocortisone
- **Topical anesthetics**
  Lidocaine / tetracaine and benzocaine / lidocaine / tetracaine
- **Spironolactone, calcipotriene / 5-FU**
  Topical options
- **Tretinoin / azelaic acid / niacinamide**
  Cream
- **Minoxidil / finasteride / B6**
  Topical solution
- **Salicylic acid / urea**
  Cream

HOW ORDERING WORKS

1 Check the boxes

Mark the compounds on our Dermatology & Aesthetics order form, or write your own formula.

2 Send it to us

E-prescribe to **Medicine Shoppe #1018** or fax the form to 740-653-8265.

3 We compound and ship

Ready 1 to 2 business days after the Rx arrives. Free shipping anywhere in Ohio.

Billing: we bill the patient or your office (cash pay). Typical cash price: #30 $49.99, #60 $79.99, #90 $119.99 (mL or capsules); prices can vary by formula.

HOW PRESCRIBERS USE THESE INGREDIENTS

Hydroquinone, kojic acid: Lightening agents used to support a more even skin tone in dark spots and melasma.

Tretinoin: Retinoid used to support skin renewal in acne and sun-damaged skin.

Azelaic acid, niacinamide: Used to support clearer skin in acne and rosacea care.

Minoxidil, finasteride: Used to support hair regrowth in pattern hair loss.

Spironolactone: Anti-androgen used topically to support acne and hair-loss care.

Calcipotriene / fluorouracil: Used together to support treatment of actinic keratoses.

Lidocaine, tetracaine, benzocaine: Numb the skin to support comfort before procedures.

Salicylic acid, urea: Soften and smooth thick, rough skin.

Notes describe common reasons prescribers choose each ingredient; some uses are off-label. They are not claims about our compounded preparations, which are not FDA-approved and whose safety and effectiveness have not been evaluated by FDA. Therapy decisions are the prescriber's.

COMPOUNDING FOR

Low-Dose Naltrexone (LDN)

LDN in the strength and form you choose, from 0.5 mg capsules to an oral liquid you can titrate.

WHAT WE COMPOUND

- **Naltrexone capsules**
  0.5 mg to 8 mg, including 1.5, 3 and 4.5 mg
- **Naltrexone oral liquid**
  1 mg/mL, 2 mg/mL or the strength you write
- **Naltrexone / B6**
  Capsule with pyridoxine 10 mg
- **Filler choice**
  Cellulose, sucrose, rice flour and more

HOW ORDERING WORKS

1 Check the boxes

Mark the compounds on our Low-Dose Naltrexone (LDN) order form, or write your own formula.

2 Send it to us

E-prescribe to **Medicine Shoppe #1018** or fax the form to 740-653-8265.

3 We compound and ship

Ready 1 to 2 business days after the Rx arrives. Free shipping anywhere in Ohio.

Billing: we bill the patient or your office (cash pay). Typical cash price: #30 $49.99, #60 $79.99, #90 $119.99 (mL or capsules); prices can vary by formula.

HOW PRESCRIBERS USE THESE INGREDIENTS

Low-dose naltrexone: Prescribed off-label at 0.5 to 8 mg, most often to support care plans for chronic pain and immune-related conditions. Full-dose naltrexone (50 mg) is FDA-approved for alcohol and opioid dependence.

Oral liquid: Supports small, gradual dose changes during titration.

Pyridoxine (B6): Vitamin B6, included as a supplement in the combination.

Notes describe common reasons prescribers choose each ingredient; some uses are off-label. They are not claims about our compounded preparations, which are not FDA-approved and whose safety and effectiveness have not been evaluated by FDA. Therapy decisions are the prescriber's.

COMPOUNDING FOR

Men's Health

Testosterone and supporting compounds in creams, troches and capsules, dosed the way you write them.

WHAT WE COMPOUND

- **Testosterone**
  Cream, troche or sublingual tablet; Schedule III
- **Tadalafil 10 mg/mL and sildenafil 1%**
  Topical creams
- **Minoxidil / finasteride / B6**
  Topical solution
- **Anastrozole**
  Capsule, 0.1 to 0.5 mg
- **Finasteride 1 mg**
  Capsule

HOW ORDERING WORKS

1 Check the boxes

Mark the compounds on our Men's Health order form, or write your own formula.

2 Send it to us

E-prescribe to **Medicine Shoppe #1018** or fax the form to 740-653-8265.

3 We compound and ship

Ready 1 to 2 business days after the Rx arrives. Free shipping anywhere in Ohio.

Testosterone is a Schedule III controlled substance: e-prescribe it (EPCS) or send a signed prescription with your DEA number.

Billing: we bill the patient or your office (cash pay). Typical cash price: #30 $49.99, #60 $79.99, #90 $119.99 (mL or capsules); prices can vary by formula.

HOW PRESCRIBERS USE THESE INGREDIENTS

Testosterone: Prescribed to support healthy testosterone levels in men with low T (its FDA-approved use).

Anastrozole: Aromatase inhibitor prescribed off-label to support estrogen balance during testosterone therapy.

Tadalafil, sildenafil: Support blood flow; oral forms are FDA-approved for erectile dysfunction.

Finasteride, minoxidil: Used to support hair retention and regrowth in male pattern hair loss.

Notes describe common reasons prescribers choose each ingredient; some uses are off-label. They are not claims about our compounded preparations, which are not FDA-approved and whose safety and effectiveness have not been evaluated by FDA. Therapy decisions are the prescriber's.

Billing: we bill the patient or your office (cash pay). Typical cash price: #30 $49.99, #60 $79.99, #90 $119.99 (mL or capsules); prices can vary by formula.

HOW PRESCRIBERS USE THESE INGREDIENTS

Diltiazem, nifedipine: Relax the anal sphincter; used to support anal fissure care.

Nitroglycerin: Relaxes smooth muscle; nitroglycerin ointment is FDA-approved for pain of chronic anal fissure.

Lidocaine, zinc oxide: Numb the area and protect the skin to support comfort.

Hydrocortisone: Corticosteroid used to support hemorrhoid and proctitis care.

Omeprazole, famotidine: Reduce stomach acid; liquids support dosing for children and patients who can't swallow pills.

Notes describe common reasons prescribers choose each ingredient; some uses are off-label. They are not claims about our compounded preparations, which are not FDA-approved and whose safety and effectiveness have not been evaluated by FDA. Therapy decisions are the prescriber's.
